Large Size – Alloys

Sized for Deep Tanks and Rugged Duty

- Stainless Steel Construction
- Standard Lengths to 18 feet (549 cm)

These rugged transmitters are designed for tanks up to 18 feet (549 cm) in depth. Heavy duty stems resist turbulence, and float options accommodate liquids with minimum specific gravity as low as 0.53. Standard resolution is 1/2 inch; higher resolutions are available on request.

* Contact GEMS about solutions for deeper tanks.

Approvals

XM-36490 and XT-36490 Series transmitters may carry the following commercial approvals:
- FM Approved, Explosion-Proof for lengths up to 10 feet (305 cm)
- UL Approved, Explosion-Proof

1. Mounting Types

Overall Length, Max. 216" (549 cm)

Note: XM/XT-36490 will be manufactured with matching Stem and Float Stop material. Contact factory for longer lengths.

Got Mud?

These Gems Alloy Float Level Sensors are the best, most reliable method to monitor mud pits. The large diameter, stainless steel stems are rugged and strong to handle heavily viscous mud and slurries. Use with the exceptionally-buoyant 8" float for best results.

</tr>
</tbody>
</table>

* Unit pressure rating is determined by the flange and float selected. Consult factory for higher pressure ratings.
** Float P/N 38639 must be installed on the transmitter stem from within the tank; or consult factory for larger range.

3. Dimensions

Typical Configuration

B. Overall Length = Inches of Indication + C + X (See Table at Right)
C. Distance From Bottom of Mounting to Float Stop (Customer Specified):
   • 1/2" (12.7mm) Minimum

Calculating Length

To find Overall Length when Inches or Indication is known:
   • Inches of Indication + C + X = Overall Length

To find Maximum Inches of Indication when Overall Length is known:
   • Overall Length - C - X = Maximum Inches of Indication
   *C dimension is determined by customer

4. Input/Output

For XM- Series, no special output designation is necessary.
For XT- Series, specify the desired signal conditioning by Part Number.
Additional information about GEMS signal conditioning modules is found on Page C-26.

Float Type Level Transmitters – Large Size

Application Environmental Conditions

1. Liquid Media: ____________________________
2. Pressure: Minimum _____ psig  Maximum _____ psig
3. Temperature: Minimum _____ °F  Maximum _____ °F
4. Specific Gravity: Minimum _____  Maximum _____

5. Viscosity: __________________ SSU

6. Tank Material: ____________________________
   Tank Depth: ______________________________

7. Unit is Mounted In:  □ Tank Top  □ Tank Bottom

1. Series:
   □ XM/XT-66400  □ XM/XT-36490

2. Mounting Type:
   □ 4” NPT (66400)
   □ Flange Size: □ 4”  □ 5”  □ 6”
   □ Flange: □ 150#  □ 300#  □ 600# (36490 Series Only)

3. Material:
   a. Stem:  □ 316L Stainless Steel
   b. Mounting:
      66400:  □ 316L Stainless Steel  □ Carbon Steel
      66400:  □ 316L Stainless Steel

4. Float Type P/N – Description:
   □ 32230 – Buna N
   □ 125520 – 4” Stainless Steel
   □ 35560 – 4-1/2” Stainless Steel
   □ 38609 – 8” Stainless
   □ 31830 – 4” syntactic foam
