

# SureSite Weights by Length

The below chart shows how to calculate the approximate weight of SureSites. Take the base model weight, plus the weight per inch, plus any additional switches or transmitters.

Type / Model	Weight
Mini SureSite	2 lbs + 1.6 oz/inch
Standard Alloy (Tubing)	12 lbs + 2.5 oz/inch
Standard Alloy (Pipe)	18 lbs + 8 oz/inch
Plastic	6.6 lbs + 3.6 oz/inch

Switches	Weight
Standard Switch	0.25 lbs each
Hi Temp	0.5 lbs each
EP Switch	3.25 lbs each

Transmitter	Weight
Standard	0.25 lbs/inch
J-Box Signal Conditioner	3.5 lbs each
